

## FICHE TECHNIQUE

### Ref. 1688-BRS3

**Mod. 'NUMANCIA'. Black leather boot S3 with dual density polyurethane sole.**

Applications: General Use (Safety Footwear) and especially jobs where there is high humidity (S3) and a high anti-slip ratio (SRC) is required.

Characteristics and benefits: S3 Black leather (Resistance to penetration and water absorption).

Double density polyurethane sole (area of lower density than the sole contact area).

Insole in EVA shaped for superior comfort. Side retroreflective strip 3M (greater visibility).

Category: S3 SRC WRU E A EN20345
